

SINAPPS

SINAPPS group studies overview (September 2016 — July 2019)

PPiP2 updates

A huge thank you to those of you joining us for our webinar on 31st July! It was great to meet more of you, albeit virtually. For those who couldn't make it, we hope the summary and slides circulated by Giuliano are useful! And don't forget to give us your feedback [here](#).

We are also pleased to announce a new PPIp2 site opening in the Midlands Partnership NHS Foundation Trust in September. Welcome to the PPIp2 study team!

PPIp2 is now at a crucial stage when we aim to maximise recruitment for the study across all sites.

We would be very grateful if researchers at all sites could prioritise study recruitment!

SINAPPS2 updates

Yet another participant has been successfully randomized in SINAPPS2!

Right at the beginning of the month, the 14th SINAPPS2 participant was successfully randomized by the Cambridge team, and now preparations for the first round of treatment are underway!

Nottingham's site at Queen's Medical Centre will be quite busy over the next few days as well, as a new potential SINAPPS2 participant will be screened there in the very near future!

And at last but not least, within the first week of September the Sheffield SINAPPS2 site will officially be open and ready to accept participants in the north of England! Quite a busy summer indeed for the SINAPPS trial (though we wouldn't have it any other way!).

Introducing a new team member: Danielle!

Hello! My name is Danielle and I am the newest member of the SINAPPS2 team, based in Manchester. I will be supporting sites across the North of England, including Greater Manchester, Cheshire, Merseyside, Yorkshire, Lancashire and surrounding areas. I have a BSc in Psychology, and 6 years of experience working with both adults and children experiencing Mental Health and Neurodevelopmental difficulties in a variety of roles. I am keen to develop my skills in Clinical Research, and to support new and on-going Research projects in Mental Health services and Research teams. Outside of work, I enjoy going running in green spaces (especially when the sun is out!), sharing great food with friends and family, and having fun playing with my nieces and nephew. I look forward to meeting you soon, and supporting your involvement with PPI2 / SINAPPS2 research studies across the North of England.

PPI2 recruiter of the month

Congratulations to staff at our top three recruiting Trusts this month!

The honours go to **Leeds and Yorkshire Partnership Foundation Trust** (Dr Kouser Shaik, Alice Locker and Diane Langthorne), **Cheshire and Wirral Partnership Foundation Trust** (Dr Taj Nathan, Lisa Douglas) and **Oxford Health Foundation Trust** (Dr Belinda Lennox, Ceridwen Morgan, Rebecca Dean, Anna Heinen, Sherin Varghese, Duncan Dudley-Hicks, Tahnee Marquardt, Anne-Marie Nillo and Alexandra Bothwell).

Reminder: Mental health and Neuroimmunology conference!

We hope you haven't got any plans for the 10th September 2019, because Kent and Medway NHS Trust has organized an event you don't want to miss! The conference will feature a great line up of speakers, including SINAPPS2 PIs Prof Belinda Lennox and Dr Ester Coutinho. Find the leaflet and registration form [here](#).
